

PROM-Y-S-E: New project about Youth Social Entrepreneurship

[PROMYSE](#) is a European-funded project with the aim to promote social entrepreneurship in the health/ social care sectors as an alternative pathway to youth self-sustainability.

The project is pleased to launch its new **e-learning platform**, available at: e-learning.promyse.eu.

The capacity building and networking platform will deliver the aims of the youth-led transnational project designed to provide social entrepreneurship and business skills in young people with relevant educational or professional background. The main content of the platform consists of several modules, related to entrepreneurship, business management, health sector, social values and human centered design.

PROMYSE partners have identified that social entrepreneurship could be a key tool for inclusive growth, as EU social economy has employed more than 11 million people, about 6% of the active workforce.

For this reason, the project aims to enable young people on how to become successful social entrepreneurs.

The consortium of the project involves the following partners:

- [The IARS International Institute \(UK\)](#) - **Project Coordinator**
- [DIESIS Coop](#) (BE)
- [KMOP](#) (GR)
- [Canary Wharf Consulting](#) (UK)
- [VŠJ Diversity Development Group](#) (LT)
- [ICSE-Co](#) (IT)
